PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience building scalable back-end and full-stack solutions for finance and insurance clients. Proficient in Java, Spring Boot, React, and MySQL; adept at automating workflows, integrating AI services, and optimizing data pipelines. Strong communicator with a cybersecurity foundation and AWS Solutions Architect – Associate & Cloud Practitioner certifications.

PROFESSIONAL EXPERIENCE

Deloitte - Analyst (Full-Stack Developer)

March 2023 - Present | Finance Industry Clients

- Designed and implemented RESTful microservices, including API contracts, business logic, and data persistence using MySQL, PostgreSQL, JPA, and Hibernate.
- Developed responsive and accessible user interfaces, ensuring usability across devices and compliance with accessibility best practices.
- Enhanced and maintained legacy systems by delivering new features and troubleshooting production issues and reported bugs.
- Built batch processing pipelines with Spring Batch and integrated asynchronous messaging through Kafka topics.
- Integrated cloud storage platforms and legacy REST services, creating provider-agnostic solutions and resolving data format incompatibilities.
- Improved service reliability and code quality through automated JUnit testing and AI-assisted development workflows to accelerate development and reduce regressions.
- Collaborated within Agile Scrum teams throughout the full software development lifecycle, contributing to planning, implementation, testing, and deployment.

AXA - Analyst

September 2022 - March 2023 | Insurance Industry Client

- Automated manual data-compilation and reporting workflows with SQL Server Integration Services (SSIS), cutting processing time from hours to minutes and eliminating repetitive errors.

TECHNICAL SKILLS

- Languages: Java, TypeScript, SQL, Python
- Frameworks/Libraries: Spring Boot, React, Angular, Hibernate, JUnit
- Databases: MySQL, PostgreSQL, SQL Server
- Cloud & DevOps: AWS (Solutions Architect – Associate, Cloud Practitioner), Git, IntelliJ IDEA, Visual Studio
- Data Integration: RESTful APIs, JSON, XML, SSIS
- Security Fundamentals: Basic Metasploit & Burp Suite usage

EDUCATION

Master's Degree in Computer Science - University of Salerno

Sept 2020 – Jul 2022 | Graduated with Honors (110/110 cum laude)

Bachelor's Degree in Computer Science - University of Salerno

Sept 2017 – Jul 2020 | Graduated with Honors (110/110 cum laude)
